Professional Experience

Timken Company - Senior SAP Basis Architect & SAP BTP Administrator

Nov 2013 - Aug 2025 | CANTON, OHIO (Hybrid/Remote)

- Led SAP Basis architecture and BTP platform services supporting SAP RISE transformation and hybrid cloud integration.
- Executed installations, upgrades, kernel patches, and brownfield migrations from ECC to S/4HANA with zero critical downtime.
- Managed BTP subaccounts, entitlements, destinations, Cloud Connector setup, and secure trust configurations.
- Integrated BTP authentication with Azure Entra ID and OKTA, enabling seamless SSO using SAML/JWT.
- Led transport strategy, dual-maintenance, and automated migration processes.
- Designed high availability and DR solutions for SAP HANA using Pacemaker clusters and replication.
- Authored operational playbooks, compliance audits, and mentored junior staff.

Hewlett Packard Global, Bangalore, India - SAP Basis Consultant

Jan 2011 - Oct 2013

- Managed OS/DB migrations on ECC, BW, SCM, Portal systems with Oracle 11g/11c on Linux.
- Implemented SAP Solution Manager 7.1 for monitoring and proactive issue resolution.
- Supported early SAP HANA deployments, backups, and security role maintenance.
- Automated administrative and migration tasks using scripting and LSMW.

Tech Mahindra - SAP Basis Administrator

Feb 2006 - Dec 2011

- Administered SAP ECC 4.7 on AIX with DB2 HADR and GeoCluster setups.
- Applied patches, kernel upgrades, and support packs for system stability.
- Developed automation scripts for monitoring and alerting.
- Executed ITIL-aligned incident and change management, and documented best practices.
